Aquamarine

Aquamarine is the blue to blue-green variety of the mineral beryl. The name comes from the Latin words aqua, meaning "water," and marina, meaning "of the sea." The gem was believed to give the wearer protection against foes in battle. While Brazil has been the main source of aquamarine since 1811, other sources include Pakistan and Uruguay.

Characteristics

Mineral	Mohs Hardness	Toughness	Birthstone
Beryl	7.5-8	Good	March

Details

Item Description

Two loose stones

Weight

4.55 and 5.50 carats

Measurements

10.07 x 10.05 x 6.51 mm and 10.12 x 9.95 x 7.30 mm

Shape

Octagonal

Color

Blue

Transparency

Transparent

Cutting Style

Step Cut

Results

Species

Natural Beryl

Variety

Aquamarine
