Appendix

This vividly saturated emerald of 4.04 ct is reminiscent in hue of the varieties displaying the legendary colors found in the world-renowned Muzo mines. They are formally described as �Muzo Green� (*) and commonly known in the trade as �Old Mine� emeralds.

This appendix indicates the specific quality and color for emeralds from various Colombian mines; however, it does not specify from which particular mine they were found.

(*) For further information see www.muzo-green.com
